

GA/SC Subcommittee

Readily available data sources

DHEC comprehensive data:

- Surface and ground water quality
 - STORET (raw data storage)
 - Watershed Water Quality Assessment Documents
 - 305(b) Report to Congress
 - 303(d) List
- Quality and quantity of wastewater discharges into the basin in South Carolina
- Location of drinking water intakes and quantity of withdrawals
 - Source Water Assessment Plans
- Location and quantity of surface and ground water withdrawals over 3 million gallons per month
 - Water Use Report
- Quantity of water authorized by Interbasin Transfer Permits within the State
- Section 208 Areawide Water Quality Management Plans
- Contaminated groundwater locations
 - Groundwater Contamination Inventory
 - GIS coverage for all activities permitted by DHEC

EPA information:

- Savannah River Basin Watershed Project
 - Initial Assessment and Prioritization Report, Volume 1
 - Initial Assessment and Prioritization Report, Volume 2
 - Watershed Implementation Strategy
 - Savannah River Basin REMAP (Demonstration of usefulness of probability sampling)

USGS data:

- Stream flow
- Real time water quality data

Issues Needing Resolution

- Finalize water quality standard for dissolved oxygen in the Savannah Harbor for Georgia
- Complete water quality model for the Savannah Harbor
- Complete water quality model for the Savannah River
- Develop TMDL for the Savannah Harbor for DO
- Complete sound science initiative study of the Upper Floridan aquifer
